

How to configure Shipment Countdown Timer ?

- Step 1: Install the extension
- Step 2: The top banner text and timer can be configured in <u>Magento Admin -></u> <u>Folio3 -> Shipment Countdown Timer</u> as seen in the screenshot below

dashboard	Configuration					Q	10	💄 admin 👻
\$ SALES	Store View: Default Config 👻	0					Sa	ve Config
CATALOG								
CUSTOMERS	FOLIO3	^	Configuration					\odot
	Shipment Countdown Timer			Activate Countdown [global]	Yes *			
	GENERAL	~		Cutt-off Time	23:59:59			
CONTENT					Hour:Minute:Second [24 hour format]			
0	CATALOG	~		Block HTML	Order In part (countdown) to receive your goods			
FOLIO3	SECURITY	~		[global]	tomorrow morning!			
REPORTS	CUSTOMERS	~						
STORES	SALES	~			This text will display on the frontend. At the top of all pages. Add {countdown} at your desired position to display couldown timer			

- Step 3: Specify shipment cut-off time in 24 hours format e.g. 15:00:00
- Step 4: Add desired text to Block HTML and set the Activate Countdown drop-down value to Yes
- Step 5: Use variable *{countdown}* to display timer at your desired position within the text block

• **Step 6**: Flush cache. Banner will now be visible at the top of every page at storefront
