

## Max Order Quantity Scheduler User Guide

### Admin Experience

- Navigate to Magento admin panel
- Navigate to any product for which you want to set up the maximum quantity per order
- Navigate to Quantity > [Advanced Inventory](#)
- Enable the Max Order Qty Scheduler and set the maximum quantity

The screenshot displays the Magento Admin Panel interface. On the left is a vertical sidebar with navigation icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, Folio3, Reports, and Stores. The main content area shows the 'Advanced Inventory' configuration for a product. A red box highlights the 'Max Order Qty Scheduler Configuration' section. Below this section, the 'Enable Maximum Order Qty Scheduler' is set to 'Yes'. Other settings include 'Max Qty Schedule' set to 2, 'Maximum Order Qty Start Date' set to 12/15/2020, and 'Maximum Order Qty End Date' set to 12/18/2020. Above the highlighted section, other inventory settings like 'Backorders', 'Notify for Quantity Below', 'Enable Qty Increments', and 'Stock Status' are visible.

- Set the Start Date and End Date, for which the maximum quantity for an order will be set, a cron will be executed that will check if the start date is equals or greater than the current date, the maximum qty allowed in shopping cart field will be populated.

NOTE: The start date and end date should always be populated

Backorders [global] No Backorders
