

Allowed Product Attribute in Layered Navigation

How does Layered Navigation Work?

This Allowed Product Attributes in Layered Navigation extension for Magento 2 allows user to filter the desired products in accordance the attributes. The word attributes can be defined as the product's characteristics such as color, size etc.

- Click on the attribute drop-down
- Select attributes option

All the products matching the attributes will be fetched and displayed to the customer

• Enable/Disable Sub-categories in layered Navigation

Setting the value to "Yes" will display the subcategories in the layered navigation on the front end. Let say if a category "Tops" has child categories of Jackets, Hoodies and Tees, then this category hierarchy will be displayed in the layered navigation on the front end.

How to manage Product attributes?

• Go to Catalog > Categories >Allowed Product Attributes

	Default Category (ID: 2)			Save	•
CUSTOMERS	Add Subcategory	Enable Category [store view]	Ves Yes		ł
MARKETING	Collapse All Expand All Collapse All Expand All Expand All Collapse All Expand All Expa	Include in Menu [store view]	Ves Yes		I
	e 🚘 Women (0) e 🚘 Men (0) e 🚘 Gear (46)	Category Name * [store view]	Default Category		I
